INTERVIEW SUMMARY

Applicants thank Examiner Gold for the telephonic interview conducted on June 12, 2008 with applicants' representative Andrew Foy.

During the interview, Examiner Gold and applicants' representative discussed the following observations made by applicants' representative regarding the present status of the application:

- The "Status" field in the "Application Data" tab made available on the USPTO's Private Patent Application Information Retrieval (PAIR) portal for the above-identified patent application indicates that a non-final Office Action has been mailed.
- The "Transaction History" tab made available on the Private PAIR portal for the above-identified patent application indicates that a Notice of Informal or Non-Responsive Amendment was mailed on January 24, 2008.
- The "Image File Wrapper" tab made available on the Private PAIR portal for the above-identified patent application does not include any record of the Notice of Informal or Non-Responsive Amendment that the "Transaction History" tab suggests was mailed on January 24, 2008.
- Applicants' representative has not received the Notice of Informal or Non-Responsive Amendment that the "Transaction History" tab suggests was mailed on January 24, 2008.

In response to these observations made by applicants' representative, Examiner Gold indicated that the USPTO would send a new Office Action to applicants' representative and that the new Office Action would reset applicants' time period for responding in accordance with the mailing date of the new Office Action.
